

QB STREAM WEEK 13

12/1/2020

These five QB are streamable options and currently are rostered in less than 60% of Yahoo leagues.

DEREK CARR - LV @ NYJ

This one hurts. I started him in a few leagues and was utterly shocked at how ineffective the offense looked last week. It was shocking and concerned me, but there are not much better matchups than NYJ. If Jacobs misses this game, this would require Carr to throw more than they would like. As much as we are hurting, I will be starting Carr again and treating him as a low-end QB1.

TAYSOM HILL - NO @ ATL

Barely making it at 59% ownership, he has proven me wrong by being a full-time starter at QB and kept defenses honest with his passing ability. Facing against ATL, where he scored two rushing TDs against them, he will have another opportunity to finish as a top-15 QB in a time where that is now rarer than it has been before.

KIRK COUSINS - MIN VS JAX

After another great performance against CAR, where he finished with more than 300 yards and 3 TDs in consecutive weeks, he faces JAX with their injured secondary. Like a surgeon general warning on a pack of cigarettes, Dalvin Cook may take over this game, and Cousins may only throw 25 passes; those 25 passes may result in 250 yards and two TDs. Add in the fact that he's on a hot streak, and I'm comfortable streaming him this week.

RYAN FITZPATRICK - MIA VS CIN

Assuming Tua is out, this would be one of my top considerations for a streamer. After playing well last week, he gets to face CIN, struggling without Joe Burrow and Joe Mixon available. While the upside may not be high since MIA will likely be ahead, I won't be surprised if we see another performance similar to last week (250 yards & 2 TDs)

BAKER MAYFIELD - CLE @ TEN

If the above four options aren't available, then break the glass and get this guy. He showed some signs of life against a porous JAX secondary and gets to face TEN next week. If CB Adoree Jackson returns, then maybe you can pivot, but if not, then this is one of the better matchups as the TEN defense has been vulnerable in recent games.
