

WEEK 16 DEF STREAMERS

LOOKING FOR TEAMS ON LESS THAN 60% OF ROSTERS IN YAHOO

1

NEW ORLEANS SAINTS VS NYJ

While they haven't been a good defense for most of the season, they have shown some potential, holding opponents to under 20 points, generating a sack, and forcing a turnover in two of their last three games. Facing a beaten-down NYJ offense that failed to surpass 14 points in three of its last five games, bottom ten in total yards, turnovers, and points scored per game, this is an excellent matchup for this defense, making it one of my preferred top-15 streaming options.

2

BUFFALO BILLS @ CLE

Facing a good NE offense, they generated a sack and forced a turnover, extending their streak to three straight games. However, they have given up over 30 points in three of their last five games. What intrigues me about this matchup is that the CLE offense is bottom five in total yards and points per game, while also ranking bottom five in turnovers, against a BUF defense that's top ten in forcing turnovers. Despite the risk, the potential upside against an inconsistent rookie QB makes this a decent streaming option.

3

MIAMI DOLPHINS VS CIN

Despite the rough performance, I choose to believe that last week was more of an anomaly than their previous four games, when they held opponents to under 20 points, forced multiple turnovers, and generated a sack. They have at least three sacks in three straight games, and they are facing a struggling CIN offense that failed to score a point last week and is in the bottom five in turnovers. While I do expect the CIN offense to score points, the potential upside is enough for me to stream this MIA defense.

4

NEW ENGLAND PATRIOTS @ BAL

I know they didn't come through for me last week, but I still believe in this top-12 defense so far into the season, as they have been impressive recently, holding opponents to under 17 points, forcing turnovers, and generating a sack in three of their last four games. This week, they face a BAL offense that's capable but not perfect and in the bottom ten in turnovers. With the NE defense being top ten in rushing yards and points allowed per game, BAL will need to throw the ball well to win, making this a risky streaming option.
